Why does NMCUSD partner with Let's Go Learn?

- Aligns with the district's instructional goals.
- Identifies learning loss due to COVID-19 school closures.
- Identifies areas of focus to close the gap in reading and math concept understanding.
- Provides reports to inform instruction and track progress.
- Includes parent connection components.

How can students access Let's Go Learn at home?

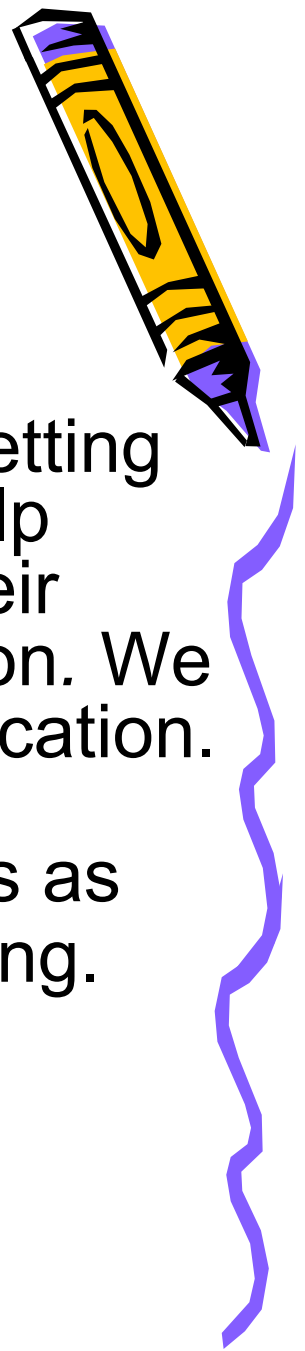

- Assessments can be accessed from anywhere you have a computer or mobile device.

As a Parent you can support by...

- Only helping with the technical aspects of getting your child set up to take the tests, do not help them answer questions! The test informs their teacher's instruction and possible intervention. We want to find the "right fit" for your child's education.
- Talk to your child's teacher about the reports as well as the gains or gaps your child is showing.

Additional Parent Resources

- When your child logs into their account, you can click on the “Parent Help” icons for additional helpful videos in English and Spanish.
