Course Description

Over the course of the school year, we will learn about over one thousand years of history. History is not just names and dates, it is the interaction of people and the changing of communities' politics, economics, religions, societies and geographic landscape. All of these things will be explored through various activities to ensure that every student, and every learning style can do well! As we take a deep dive into the many civilizations that came before us, we will strengthen our geography, critical thinking, argument and collaboration skills.

Live Zooms-

You are expected to attend all live Zoom classes. It is important that you check your email before your first class and after your last class every day so you do not miss important messages. Sign on a few minutes early, and wait in the waiting room until I admit you to class. You are expected to complete the prerequisite learning (independent assignments)

BEFORE coming to Zoom class. Please see the
