Comprehensive School Safety Plan Purpose

Effective January 1, 2019, Assembly Bill 1747 (Rodriguez), School Safety Plans, became law. This bill requires that during the writing and development of the comprehensive school safety plan (CSSP), the school site council or safety committee consult with a fire department and other first responder entities in addition to currently required entities. It requires the CSSP and any updates made to the plan to be shared with the law enforcement agency, the fire department, and the other first responder entities.

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions
- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy of the Comprehensive School Safety Plan is available for review at North Monterey County Middle School.

Strategies and Programs to Provide and Maintain a High Level of Safety (EC 32281(a)1, items A-J)

1. Attendance Policies

When a student is absent, his/her parent notifies the school office about the reason for the absence. If the parent doesn’t notify the office, the Attendance Clerk calls the parent or guardian to verify the absence.

The school uses an auto-dial system to contact the parents/guardians of all students whose absence from school is not cleared by the end of the school day. The automated phone call is made by 6:30 p.m. on the day of the absence.

2. Campus Safety Monitors
Six campus safety monitors and 2 additional staff members/administrators have designated locations of the school to help monitor students before school, break, lunch, and during after school student activities.

Campus safety monitors carry 2-way radios so that they can communicate easily with each other, the school office, and school administrators. They invite school visitors to report to the main office, and alert the office of any unwanted intruders.

3. Closed Campus Policy

The campus is surrounded by chain link fencing, and access to the campus is limited to the main parking area only during school hours. Signs are prominently posted to remind all visitors to report to the office.

Students may not leave campus during school hours, unless the school office personnel have officially released them to an authorized adult (legal parent/guardian or adult identified in student emergency contacts). The responsible adult must sign the student out and indicate the reason for the early release. All adults picking up students early will need to be identified on the registration paperwork for the district and identification will need to be verified prior to the release of the student.

4. Communication Tools

The school maintains 2-way radios that are charged overnight and are distributed every day to the custodians, office personnel, administrators, counselor, physical education teachers, campus safety monitors, and any other support staff on site.

A communication broadband (CB) radio is located in the main office and is used to communicate with outside agencies (i.e. transportation department, district maintenance department, fire/police departments) in extreme emergencies.

Every classroom has an intercom system that is connected to the classroom speaker and a telephone. The intercom, the phone, and emergency blue button can be used in any emergency to contact the office. The office can contact any specific classroom, or all classrooms simultaneously to send alert messages.

5. Other Staff

There are three Custodians who help supervise the presence of intruders on campus. They carry 2-way radios with which they can contact the office and administrators to alert them to any danger. Other staff that carry radios and can communicate in case of an emergency include: office staff, support staff, teacher aides in rooms 1 and 3, after school program (ASES) staff, mental health counselor, librarian, physical education teachers and aides.

The school office personnel, including the Administrative Assistant to the Principal and the Attendance Clerk, monitor the sign-in and sign-out of visitors and students. If an adult comes to the office to request that a student leave the campus in their custody, the office staff ensures that the adult is listed on the student’s Emergency Contacts prior to that student being released, as well as ensuring that proper identification is verified. If the adult is not a known authorized adult of the child, the student will not be released.

Classroom teachers spend the most time with the students and can be the best informed of dangerous situations that may be imminent. Teachers communicate their understanding of imminent dangers to the school administrators or office personnel.

6. Visitor Policy

Visitors to the campus must sign in at the main office to record their arrival/departure time and purpose of their visit. They are given a visitor sticker/badge to wear while on campus so that any school personnel can determine that the office has checked in the visitor. Due to the ongoing COVID-19 Pandemic visitors have been restricted to the front office and athletic events for the 2021-22 academic year.

7. School Administration

The school Principal and Assistant Principal are actively involved with student supervision and discipline. They interview all students who participate in behavior that requires disciplinary action and make all determinations regarding consequences for misbehavior, including suspension and recommendation for expulsion. The school administrators help supervise student arrival, dismissal, break,
lunch, and classroom participation. When there are issues of concern, the school administrators interview the student and contact the student’s parent.

8. Law Enforcement Presence

The Monterey County Sheriff’s Department maintains a field office in Castroville. NMCUSD has commissioned a school resource officer through the Monterey County Sheriff’s office. The SRO is scheduled to be at the Middle School on a scheduled day of the week and for special events. The SRO is also available for consulting services and to be a positive role model within our community and with our student population. In addition, the SRO is part of the District Emergency Response Team and supports in providing school and district-wide Safety trainings. If necessary, there’s adequate deputies on duty at any time, who serve the large unincorporated area of North Monterey County

9. After-School Activity Programs

The school operates the After School Education and Safety (ASES) Program, a 21st Century Learning Program, and a fee-based/subsidized child care program called Kid Zone. Students are scheduled into classes and role is taken daily so that students are accounted for. Staff in these two programs monitor visitors on campus and adhere strictly to student release policies. The staff of the program all carry 2-way radios and can be contacted both for a release of students for pick-up and in any emergency situation. Students may only be released to adults who are listed as primary caregiver or in their Emergency Contacts.

10. Community-Parent Partnerships

The Parent-Teacher Organization is active in providing supplemental activities to students at the school such as the Fall Festival. Parent visibility on campus increases the capacity of the school to supervise student activities and ensure that intruders are quickly identified.

11. Sport Teams

The Athletic Director is responsible for compiling emergency contacts for each student on a team. This list will allow for students to be released to authorized adults (legal parent/guardian or adult identified in student emergency contacts). In addition, the Athletic Director is responsible for compiling a list of adults authorized to transport students to and from sporting events. This information is shared with school administration, office staff and team coaches.

12. Students with Functional Needs

A list of students with functional needs/supporting staff and evacuation plans is located within the emergency management binder at the school site. Each classroom teacher, staff, students, parents of those identified students is informed of the evacuation plan and those plans are updated yearly as necessary. Based upon students' specific needs they will be provided with assistance during the disaster/emergency event in order to remain safe.

13. Preschool

The school operates a preschool program on site with hours varying 6AM-6PM. The classroom program staff carry a 2-way radio for communication with the front office for safety. Staff in the preschool program monitor visitors on campus and adhere strictly to student release policies. All parents are screened before entering the preschool classroom for pick-up. Students may only be released to adults who are listed as primary caregiver or in their Emergency Contacts.

(A) Child Abuse Reporting Procedures (EC 35294.2 [a] [2]; PC 11166)

A mandated reporter who knows or reasonably suspects that a minor is the victim of child abuse must report immediately by telephone and in writing by follow-up report within 36 hours to a law enforcement agency. The law penalizes the failure to report by imposing a jail sentence on the defaulting mandated reporter. On the other hand, the law rewards the reporter who meets the reporting obligation by granting absolute immunity from civil or criminal prosecution. (Penal Code Section 11166)
Mandated Reporter: a “Child care custodian”; includes teachers, administrators, supervisors of child welfare and attendance, certificated pupil personnel staff. If specifically trained in child abuse detection, also includes instructional aides, teacher’s aides, and teacher assistants. District employed childcare workers and health practitioners (doctors, nurses and psychologists) are also mandated reporters.

Knowledge of or Reasonably Suspects Abuse: When a mandated reporter observes a child with physical “injuries which appear to have been inflicted...by other than accidental means by any other person...” Whether or not there are visible physical injuries, all suspected sexual abuse must be reported.

To Whom is the Report Made: An oral report to designated law enforcement agencies must be made immediately. The observing employee must contact:

a. The Child Protective Services (CPS) Hotline: (800) 606-6618
or
b. Monterey County Sheriff’s Department (non-emergency) (831) 755-3752
Emergency Number 911

A follow up written report must be submitted within 36 hours.

School Interview Law:

Law enforcement or Child Protective Services may interview suspected victims of child abuse on school premises during school hours concerning child abuse in the home. The child may choose to be interviewed in private or may select an adult staff member to be present “to lend support”.

Step One – The investigator comes to school.

All investigations begin in the school office. The staff member “in charge” should ask for identification and the purpose of the proposed interview. When it is made clear that the interview will focus on allegation of abuse in the home, the staff member in charge should be present with the child before the interview begins.

Step Two - The investigator must advise the child of the right to choose a staff member to be present during the interview.

What the school employee should do if:

1. The child chooses not to have a staff member present? The staff member should leave the room.
2. The child asks for either the mother or father to be present? School employees do not grant or deny such requests. This responsibility lies with the investigator.
3. The child changes their mind during the interview? The law gives the child a continuous option to ask for an adult staff member or to send the staff member away.

Step Three – The child asks for an adult staff member to be present

What can the selected staff member do?

a. The staff member, by law, may decline to sit in the interview
b. The school administrator should inform the selected staff member of their duties during the interview. A copy of Penal Code 11174.3 should be supplied to the staff member who has agreed to be present.
c. The staff member’s role is one of a “comforter” during the interview. There is no questioning by the staff member and no discussion of the child abuse incident with the child. There must be no prompting by the staff member. Investigators should not attempt to ask or direct the staff member to coerce, suggest or elicit a response from the child.
d. The law forbids disclosure of what the staff member hears or learns during the interview. This confidentiality disappears when a court orders testimony. No written report is required by the staff member.

The child shall be afforded the option of being interviewed in private or selecting any adult who is a member of the staff of the school, including any certificated or classified employee or volunteer aide, to be present at the interview. A representative of the agency investigating suspected child abuse or neglect or the State Department of Social Services shall inform the child of that right prior to the interview.

The purpose of the staff person's presence at the interview is to lend support to the child and enable him or her to be as comfortable as possible. However, the member of the staff so elected shall not participate in the interview. The member of the staff so present shall not discuss the facts or circumstances of the case with the child. The member of the staff so present, including, but not limited to, a volunteer aide, is subject to the confidentiality requirements of this article, a violation of which is punishable as specified in Section 11167.5. (B) Disaster Procedures (EC 35295-35297; GC 8607 and 3100)

Disaster Plan (See Appendix C-F)
Detailed procedures/roles/responsibilities stating what needs to be done when a natural/environmental/manmade disaster occurs can be found under Incident Command, IC Team Responsibilities, Emergency Response Guidelines, and Specific Emergency Plans.

Students with Functional Needs

(I) School Discipline Rules and Consequences (EC 35291 and EC 35291.5)

**North Monterey County Middle School Student Conduct Code**

North Monterey County Unified School District Board Policies address discipline procedures to be followed in the case of unacceptable actions by students against persons or property. These policies also protect the constitutional rights of students. In recent years the courts have emphasized the constitutional principle that students do have certain rights when they attend our schools. Such rights include freedom of expression, speech, and equal educational opportunity. Along with these rights come additional responsibilities on the part of the students. The staff of the school system will work with the students to help them understand their rights and responsibilities and to grow to maturity with additional respect for fairness, justice and truth.
Students are suspended or expelled from school or school activities to protect the physical safety of other students or staff or to ensure that classroom instruction is continued without interference. The general safety, well-being, and educational goals of all students must be considered along with the rights and responsibilities of each individual.

California law permits suspension from school and school activities for a period of five days, except while waiting for action by juvenile court or the Board of Trustees, when time may be extended.

In expulsion cases, a full hearing is given to each student by the Board of Trustees. The facts of each case are carefully reviewed in this hearing and by the Board of Trustees. Final action is taken by the Board of Trustees in open session.

Expected Student Behavior

The Board of Trustees of North Monterey County Unified School District, in support of public education and the exercise of general supervision of district schools, believes that the conduct of students must establish an educational climate conducive for the furtherance of educational opportunities for youth and the promotion of learning. For this purpose, the people of the State have empowered local boards of education to regulate student conduct.

The governing board of any school district shall prescribe rules not inconsistent with law or with the rules prescribed by the State Board of Education, for the government and discipline of the schools under its jurisdiction. (E.C. 35291) All pupils shall comply with the regulations, pursue the required course of study, and submit to the authority of the teachers of the schools. (E.C. 48908)

There is a place and an appropriate educational program in our schools for every student interested in pursuing an education. The law requires attendance of youth between certain ages and the public has, through numerous legislative enactments, expressed its will that educational opportunities shall be provided for all.

Rules and Regulations

Rules and regulations are established to maintain an atmosphere conducive to learning. Students who fail to comply with these rules and regulations will be counseled, reprimanded, suspended, expelled, and/or arrested as the laws are applied.

Suspension shall be imposed only when other means of correction fail to bring about proper conduct, provided that a pupil may be suspended for any of the reasons enumerated in E.C. Sections 48900 (a-s), 48900.2, 48900.3, 48900.4, 48900.7, 48901.5 and sections of 48915 upon a first offense.

a) The principal may recommend a pupil’s expulsion for any of the acts enumerated in Section 48900 and in sections of E.C. 48915.

b) Upon recommendations by the principal or by a hearing officer or administrative panel appointed pursuant to subdivision (d) of Section 48918, the governing board may order a pupil expelled upon finding that the pupil violated E.C. Sections 48900 (a-s), 48900.2, 48900.3, or 48900.4, 48900.7; and that other means of correction have repeatedly failed to bring about proper conduct, or due to the nature of the violation, the presence of the pupil causes a continuing danger to the physical safety of the pupil or others and that other means of correction are not feasible. The governing board shall order expulsion for violation of E.C. 48915 (c-1) to (c-5).

Should the student be expelled by the Board of Trustees of North Monterey County School District, the action may be appealed by the student or parent to the County Board of Education.

The Monterey County Sheriff is available on an as-needed basis.

RIGHTS AND RESPONSIBILITIES
In our form of government the judicial system interprets the law and its applications and orders compliance with its interpretations. Judicial decisions have constantly supported the authority of the State and of school officials to prescribe and control conduct in the schools. This has been extended from control of students while on the school grounds to also maintaining order at other events, such as athletic contests. In recent years, however, the courts have recognized the student’s legitimate right to a public education,
which is protected by the Due Process Clause of the Constitution of the United States. This right cannot be taken away for misconduct without adherence to the minimum procedures required by that clause.

The U.S. Supreme Court has made clear that students cannot collide with the rights of others without expecting a penalty. “But conduct by the student, in class or out of it, which for any reason - whether it stems from time, place, or type of behavior - materially disrupts class work or involves substantial disorder or invasion of the rights of others is, of course, not immunized by the constitutional guarantee of freedom of speech.”

The role of the parent continues to be of primary importance in the education and control of the student. Parents are encouraged to help their youngsters by stressing the importance of a sound education and by forming a cooperative partnership with the schools to help guide and influence the education of all students.

The Board of Trustees desires to provide a safe school environment that allows all students equal access and opportunities in the district’s academic, extracurricular, and other educational support programs, services, and activities. The Board prohibits, at any district school or school activity, unlawful discrimination, including discriminatory harassment, intimidation, and bullying, targeted at any student by anyone, based on the student’s actual or perceived race, color, ancestry, national origin, nationality, ethnicity, gender, age, religion, marital or parental status, physical or mental disability, sex, sexual orientation, gender identity, or gender expression or association with a person or group with one or more of these actual or perceived characteristics.

This policy shall apply to all acts related to school activity or to school attendance occurring within a district school, and to acts which occur off campus or outside of school-related or school-sponsored activities but which may have an impact or create a hostile environment at school.

Unlawful discrimination, including discriminatory harassment, intimidation, or bullying, may result from physical, verbal, nonverbal, or written conduct based on any of the categories listed above. Unlawful discrimination also includes the creation of a hostile environment through prohibited conduct that is so severe, persistent, or pervasive that it affects a student’s ability to participate in or benefit from an educational program or activity; creates an intimidating, threatening, hostile, or offensive educational environment; has the effect of substantially or unreasonably interfering with a student’s academic performance; or otherwise adversely affects a student’s educational opportunities.

Unlawful discrimination also includes disparate treatment of students based on one of the categories above with respect to the provision of opportunities to participate in school programs or activities or the provision or receipt of educational benefits or services.

The Board also prohibits any form of retaliation against any individual who reports or participates in the reporting of unlawful discrimination, files or participates in the filing of a complaint, or investigates or participates in the investigation of a complaint or report alleging unlawful discrimination. Retaliation complaints shall be investigated and resolved in the same manner as a discrimination complaint.

The Superintendent or designee shall facilitate students’ access to the educational program by publicizing the district’s nondiscrimination policy and related complaint procedures to students, parents/guardians, and employees. He/she shall provide
training and information on the scope and use of the policy and complaint procedures and take other measures designed to increase the school community’s understanding of the requirements of law related to discrimination. The Superintendent or designee shall regularly review the implementation of the district’s nondiscrimination policies and practices and, as necessary, shall take action to remove any identified barrier to student access to or participation in the district’s educational program. He/she shall report his/her findings and recommendations to the Board after each review.

Regardless of whether a complainant complies with the writing, timeline, and/or other formal filing requirements, all complaints alleging unlawful discrimination, including discriminatory harassment, intimidation, or bullying, shall be investigated and prompt action taken to stop the discrimination, prevent recurrence, and address any continuing effect on students.

Students who engage in unlawful discrimination, including discriminatory harassment, intimidation, retaliation, or bullying, in violation of law, Board policy, or administrative regulation shall be subject to appropriate consequence or discipline, which may include suspension or expulsion when the behavior is severe or pervasive as defined in Education Code 48900.4. Any employee who permits or engages in prohibited discrimination, including discriminatory harassment, intimidation, retaliation, or bullying, shall be subject to disciplinary action, up to and including dismissal.

Record-Keeping
The Superintendent or designee shall maintain a record of all reported cases of unlawful discrimination, including discriminatory harassment, intimidation, or bullying, to enable the district to monitor, address, and prevent repetitive prohibited behavior in district schools.

North Monterey County USD | BP 5145.7 Students - Sexual Harassment

The Board of Trustees is committed to maintaining a safe school environment that is free from harassment and discrimination. The Board prohibits, at school or at school-sponsored or school-related activities, sexual harassment targeted at any student by anyone. The Board also prohibits retaliatory behavior or action against any person who reports, files a complaint or testifies about, or otherwise supports a complainant in alleging sexual harassment.

The district strongly encourages any student who feels that he/she is being or has been sexually harassed on school grounds or at a school-sponsored or school-related activity by another student or an adult who has experienced off-campus sexual harassment that has a continuing effect on campus to immediately contact his/her teacher, the principal, or any other available school employee. Instruction/Information
The Superintendent or designee shall ensure that all district students receive age-appropriate information on sexual harassment. Such instruction and information shall include:

2. A clear message that students do not have to endure sexual harassment under any circumstance.
3. Encouragement to report observed incidents of sexual harassment even where the alleged victim of the harassment has not complained.
4. A clear message that student safety is the district's primary concern, and that any separate rule violation involving an alleged victim or any other person reporting a sexual harassment incident will be addressed separately and will not affect the manner in which the sexual harassment complaint will be received, investigated, or resolved.
5. A clear message that, regardless of a complainant's noncompliance with the writing, timeline, or other formal filing requirements, every sexual harassment allegation that involves a student, whether as the complainant, respondent, or victim of the harassment, shall be investigated and prompt action shall be taken to stop any harassment, prevent recurrence, and address any continuing effect on students.
6. Information about the district's procedure for investigating complaints and the person(s) to whom a report of sexual harassment should be made.
7. Information about the rights of students and parents/guardians to file a civil or criminal complaint, as applicable, including the right to file a civil or criminal complaint while the district investigation of a sexual harassment complaint continues.
8. A clear message that, when needed, the district will take interim measures to ensure a safe school environment for a student who is the complainant or victim of sexual harassment and/or other students during an investigation and that, to the extent possible, when such interim measures are taken, they shall not disadvantage the complainant or victim of the alleged harassment.

Complaint Process and Disciplinary Actions
Sexual harassment complaints by and against students shall be investigated and resolved in accordance with law and district procedures specified in AR 1312.3 - Uniform Complaint Procedures. Principals are responsible for notifying students and parents/guardians that complaints of sexual harassment can be filed under AR 1312.3 and where to obtain a copy of the procedures.

Upon investigation of a sexual harassment complaint, any student found to have engaged in sexual harassment or sexual violence in violation of this policy shall be subject to disciplinary action. For students in grades 4-12, disciplinary action may include suspension and/or expulsion, provided that, in imposing such discipline, the entire circumstances of the incident(s) shall be taken into account.
Upon investigation of a sexual harassment complaint, any employee found to have engaged in sexual harassment or sexual violence toward any student shall have his/her employment terminated in accordance with law and the applicable collective bargaining agreement.

Record-Keeping
The Superintendent or designee shall maintain a record of all reported cases of sexual harassment to enable the district to monitor, address, and prevent repetitive harassing behavior in district schools.

North Monterey County USD | BP 5145.9 Students - Hate-Motivated Behavior

The Board of Trustees is committed to providing a safe learning environment that protects students from discrimination, harassment, intimidation, bullying, and other behavior motivated by a person's hostility towards another person's real or perceived ethnicity, national origin, immigrant status, sex, gender, sexual orientation, religious belief, age, disability, or any other physical or cultural characteristic. The Superintendent or designee shall design strategies to promote harmonious relationships among students, prevent incidents of hate-motivated behavior to the extent possible, and address such incidents if they occur.

The Superintendent or designee shall collaborate with regional programs and community organizations to promote safe environments for youth. Such collaborative efforts shall focus on ensuring an efficient use of district and community resources, developing effective prevention strategies and response plans, providing assistance to students affected by hate-motivated behavior, and/or educating students who have perpetrated hate-motivated acts.

The district shall provide students with age-appropriate instruction that includes the development of social-emotional learning, promotes their understanding of and respect for human rights, diversity, and acceptance in a multicultural society, and provides strategies to manage conflicts constructively.

As necessary, the district shall provide counseling, guidance, and support to students who are victims of hate-motivated behavior and to students who exhibit such behavior.

The Superintendent or designee shall ensure that the rules prohibiting hate-motivated behavior and procedures for reporting a hate-motivated incident are provided to students and parents/guardians.

The Superintendent or designee shall provide staff with training on recognizing and preventing hate-motivated behavior and on effectively enforcing rules for appropriate student conduct.

Complaint Process
A student or parent/guardian who believes the student is a victim of hate-motivated behavior is strongly encouraged to report the incident to a teacher, the principal, or other staff member.

Any staff member who is notified that hate-motivated behavior has occurred, observes such behavior, or otherwise becomes aware of an incident shall immediately contact the principal or the compliance officer responsible for coordinating the district's response to complaints and complying with state and federal civil rights laws. As appropriate, he/she shall also contact law enforcement.

Any complaint of hate-motivated behavior shall be investigated and, if determined to be discriminatory, shall be resolved in accordance with law and the district's uniform complaint procedures specified in AR 1312.3 - Uniform Complaint Procedures. If, during the investigation, it is determined that a complaint is about nondiscriminatory behavior, the principal or designee shall inform the complainant and shall take all necessary actions to resolve the complaint.

BP 3515.7
Cautionary Notice: SB 707 (Ch. 766, Statutes of 2015) amended Penal Code 626.9 and 30310 to provide that a person with a concealed weapons license must obtain written permission of the Superintendent or designee in order to possess a firearm and/or ammunition on school grounds. In view of the public interest and safety issues involved, CSBA strongly recommends that the Governing Board adopt a policy either prohibiting or permitting such possession and, if such possession is allowed, establishing conditions and criteria for granting permission to individuals. Because the law now requires an affirmative action on the part of the district to allow or disallow concealed weapons permit holders to possess a firearm and/or ammunition on school grounds, it is possible that district liability could be increased. Thus, in adopting a policy, CSBA recommends that the Board consult with the district’s legal counsel and insurance provider and with local law enforcement in order to carefully tailor the following sample policy to reflect the district’s local circumstances.

The Board of Trustees is committed to providing a safe environment for students, staff, and visitors on campus. The Superintendent or designee shall consult with local law enforcement, insurance carriers, and other appropriate individuals and agencies to address the security of school campuses.

Procedures for Preventing Acts of Bullying and Cyber-bullying
North Monterey County USD | BP 5131.2 - Bullying

The Board of Trustees recognizes the harmful effects of bullying on student learning and school attendance and desires to provide a safe school environment that protects students from physical and emotional harm. District employees shall establish student safety as a high priority and shall not tolerate bullying of any student.

No individual or group shall, through physical, written, verbal, or other means, harass, sexually harass, threaten, intimidate, retaliate, cyberbully, cause bodily injury to, or commit hate violence against any student or school personnel.

Cyberbullying includes the electronic creation or transmission of harassing communications, direct threats, or other harmful texts, sounds, or images as defined in Education Code 48900. Cyberbullying also includes breaking into another person's electronic account and assuming that person's identity in order to damage that person's reputation.

Strategies for addressing bullying in district schools shall be developed with involvement of key stakeholders, including students, parents/guardians, and staff, and may be incorporated into the comprehensive safety plan, the local control and accountability plan, and other applicable district and school plans.

As appropriate, the Superintendent or designee may collaborate with law enforcement, courts, social services, mental health services, other agencies, and community organizations in the development and implementation of joint strategies to promote safety in schools and the community and to provide services for alleged victims and perpetrators of bullying.

Bullying Prevention
To the extent possible, district schools shall focus on the prevention of bullying by establishing clear rules for student conduct and implementing strategies to promote a positive, collaborative school climate. Students shall be informed, through student handbooks and other appropriate means, of district and school rules related to bullying, mechanisms available for reporting incidents or threats, and the consequences for engaging in bullying.

As appropriate, the district shall provide students with instruction, in the classroom or other educational settings, that promotes social-emotional learning, effective communication and conflict resolution skills, character/values education, respect for cultural and individual differences, self-esteem development, assertiveness skills, and appropriate online behavior.

Such instruction shall also educate students about the negative impact of bullying, discrimination, intimidation, and harassment based on actual or perceived immigration status, religious beliefs and customs, or any other individual bias or prejudice.

The Superintendent or designee shall provide training to teachers and other school staff to raise their awareness about the legal obligation of the district and its employees to prevent discrimination, harassment, intimidation, and bullying of district students. Such training shall be designed to provide staff with the skills to:

1. Discuss the diversity of the student body and school community, including their varying immigration experiences
2. Discuss bullying prevention strategies with students, and teach students to recognize the behavior and characteristics of bullying perpetrators and victims
3. Identify the signs of bullying or harassing behavior
4. Take immediate corrective action when bullying is observed
5. Report incidents to the appropriate authorities, including law enforcement in instances of criminal behavior

Based on an assessment of bullying incidents at school, the Superintendent or designee may increase supervision and security in areas where bullying most often occurs, such as classrooms, playgrounds, hallways, restrooms, and cafeterias.

Intervention

Students are encouraged to notify school staff when they are being bullied or suspect that another student is being victimized. In addition, the Superintendent or designee shall develop means for students to report threats or incidents confidentially and anonymously.

School staff who witness an act of bullying shall immediately intervene to stop the incident when it is safe to do so. (Education Code 234.1)

When appropriate based on the severity or pervasiveness of the bullying, the Superintendent or designee shall notify the parents/guardians of victims and perpetrators and may contact law enforcement.

The Superintendent, principal, or principal’s designee may refer a victim, witness, perpetrator, or other student affected by an act of bullying to a school counselor, school psychologist, social worker, child welfare attendance personnel, school nurse, or other school support service personnel for case management, counseling, and/or participation in a restorative justice program as appropriate. (Education Code 48900.9)

Reporting and Filing of Complaints

Any student, parent/guardian, or other individual who believes that a student has been subjected to bullying or who has witnessed bullying may report the incident to a teacher, the principal, a compliance officer, or any other available school employee. Within one business day of receiving such a report, a staff member shall notify the principal of the report, whether or not a uniform complaint is filed. In addition, any school employee who observes an incident of bullying involving a student shall, within one business day, report his/her observation to the principal or a district compliance officer, whether or not the alleged victim files a complaint.

Within two business days of receiving a report of bullying, the principal shall notify the district compliance officer identified in AR 1312.3 - Uniform Complaint Procedures.

When the circumstances involve cyberbullying, individuals with information about the activity shall be encouraged to save and print any electronic or digital messages that they feel constitute cyberbullying and to notify a teacher, the principal, or other employee so that the matter may be investigated. When a student uses a social networking site or service to bully or harass another student, the Superintendent or designee may file a request with the networking site or service to suspend the privileges of the student and to have the material removed.

When a report of bullying is submitted, the principal or a district compliance officer shall inform the student or parent/guardian of the right to file a formal written complaint in accordance with AR 1312.3. The student who is the alleged victim of the bullying shall be given an opportunity to describe the incident, identify witnesses who may have relevant information, and provide other evidence of bullying.

Investigation and Resolution of Complaints

Any complaint of bullying shall be investigated and, if determined to be discriminatory, resolved in accordance with law and the district’s uniform complaint procedures specified in AR 1312.3.

If, during the investigation, it is determined that a complaint is about nondiscriminatory bullying, the principal or designee shall inform the complainant and shall take all necessary actions to resolve the complaint.

Discipline

Corrective actions for a student who commits an act of bullying of any type may include counseling, behavioral intervention and education, and, if the behavior is severe or pervasive as defined in Education Code 48900, may include suspension or expulsion in accordance with district policies and regulations.
Safety Plan Review, Evaluation and Amendment Procedures

An updated file of all non-sensitive safety-related plans and materials is always readily available for review by the public upon request. Comprehensive safety plan is available at the school site and online as well as the red emergency services binder.

Incident Command Team Responsibilities

Standardized Emergency Response Management System Overview
The California Standardized Emergency Management System (SEMS) is designed to centralize and coordinate emergency response through the use of standardized terminology and processes. This greatly facilitates the flow of information and resources among the agencies participating in response to an emergency. SEMS consists of five functions:

The five functions of the ICS are Command, Operations, Planning/Intelligence, Logistics, and Finance/Administration. Individuals working under the Command function will be referred to as the Command Staff, while personnel assigned responsibilities under Operations, Planning/Intelligence, Logistics, or Finance/Administration will be referred to as the Section Chiefs. Under SEMS, the ICS team can be expanded or reduced, depending on the situation and the immediate needs. An individual can execute more than one function.

Management
During an emergency, the Incident Commander directs response actions from a designated Command Post. To effectively do this, the Incident Commander must constantly assess the situation, and develop and implement appropriate strategies. The Incident Commander must be familiar with the available resources, accurately document all response actions, and effectively communicate response strategies to others participating in the response. This function is typically filled by the school principal. The principal is assisted in carrying out this function by a Public Information & Liaison Officer and Safety Officer.

Planning & Intelligence
Planning and Intelligence involves the use of various methods to efficiently gather information, weigh and document the information for significance, and actively assess the status of the emergency. This understanding and knowledge about the situation at hand is vital to the effective management of a response. These activities are performed by a single person who reports directly to the Incident Commander.

Operations
All response actions are implemented under by Operations. This includes staff performing first aid, crisis intervention, search and rescue, site security, damage assessment, evacuations, and the release of students.

Logistics
Logistics supports the response by coordinating personnel; assembling and deploying volunteers; providing supplies, equipment, and services; and facilitating communications among emergency responders.

Finance & Administration
Finance & Administration involves the purchasing of all necessary materials, tracking financial records, timekeeping for emergency responders, and recovering school records following an emergency. These activities are performed by a single person who reports directly to the Incident Commander.
Emergency Response Guidelines

Step One: Identify the Type of Emergency
Identify the Threat and Hazard Emergency from the following categories: (1)Natural Hazards (2)Technological Hazards (3) Biological Hazards (4) Adversarial, Incidental, and Human caused Threats.

Step Two: Identify the Level of Emergency
LEVEL 1 EMERGENCY is classified as a MINOR EMERGENCY and defined as a localized incident with a limited threat to life/safety and no impact to normal campus operations. Response to a MINOR EMERGENCY is managed at the campus by the site Incident Command Team level with limited support from district resources unless support is requested from the district Core Emergency Team.

LEVEL 2 EMERGENCY is classified as a MAJOR EMERGENCY and defined as an incident that threatens life/safety and/or severely impacts normal campus operations. Response to a MAJOR EMERGENCY can be managed at the campus or district level and could require significant resources internal and external to North Monterey County Unified School District. The district Core Emergency Team - Incident Command System is activated for a MAJOR EMERGENCY.

LEVEL 3 EMERGENCY is classified as a DISASTER and defined as an incident that results in the catastrophic loss of life and/or closure of one or more campuses for an extended period of time. Response to a DISASTER is managed at the district Core Emergency Team - Incident Command System and requires mutual aid from external agencies.

Step Three: Determine the Immediate Response Action
The school site will respond to emergency situations effectively and efficiently. The focus of the school site emergency safety plan is on planning for the response to both minor and major emergencies. Response operations are intended to resolve a situation while minimizing casualties and property damage, and may include: warning and notification, campus operations, general first aid, evacuation, sheltering, as well as other associated functions.

Minor Emergency: A localized incident with limited threat to life/safety and no impact to normal school site operations.

Major Emergency: A major emergency is defined as an incident that threatens life/safety on a campus and/or severely impacts normal school site operations. When doubt exists or if a minor emergency has potential to become more dangerous, always resolve in favor of notification and follow the notification procedure for Level 2 and 3 emergencies. The district Core Emergency Team - Incident Command System is activated for a MAJOR EMERGENCY.

Step Four: Communicate the Appropriate Response Action
Upon establishing that a Minor/Major incident is occurring/had occurred on campus the School site administration will communicate appropriately depending on the nature of the incident. 9-1-1 will be dialed for any incident which may significantly impact life/property. The site administrator/designee will also contact the appropriate district Core Emergency Team of the incident. The site administration will activate the site Incident Command System to include a site Public Information Officer that will work in alignment with the district Core Emergency Team and responding local agencies. The Public Information Officer will communicate out to families on the incident as appropriate using various communication platforms.

“Duck, Cover and Hold”
a.Warning: The warning for this type of emergency is the beginning of the disaster itself (i.e. Earthquake/Fire/Explosion) Immediately use the site’s school-wide communication system to instruct students and staff to protect themselves by moving into a “duck & cover” position by crouching under a table, desk, or chair until the danger passes. IC shall not assume that all members of the site are already in a “duck & cover” position. The announcement shall be made even if the immediate crisis has passed.

b. Action “Duck, Cover, and Hold” consists of:
1) Command “Duck, Cover, and Hold” is given.
2) Each student and staff member takes cover under a table or desk, dropping to his or her knees, with the head protected by the arms, and the back to the windows.
3) Students and staff immediately duck under a desk or table and, with both hands, hold onto the desk leg or table leg.
4) Hang on with both hands and be prepared to move with the desk or table and keep your head and body under the top of the desk or table at all times. Try to stay on your knees when the furniture is moving to keep your face off the floor.
5) After all movement and noise stops, stay under desk or table until a teacher gives you instructions. Listen carefully and following instructions.

c. Action “Duck, Cover, and Hold” is effective for students and staff who are indoors, and is considered appropriate for, but not limited to, the following:
1) Earthquake: shaking of the earth
2) Explosion
3) Surprise nuclear attack:
   a) Intense light
   b) Tremendous sound

Shelter in Place: Immediately use the site’s school-wide communication system to instruct students and staff that they are to stay indoors until further notice.

Lock Down: Immediately use the site’s school-wide communication system to instruct staff to lock all exterior doors, to close any open windows, and to keep students as far away as possible from any windows and doors until further notice. Other means of communication during a lockdown may include two way radios, cellular phone or email.

Evacuate Building: Immediately use the site’s fire alarm bell system to notify students and staff that they are to proceed to the site’s outside evacuation areas.

Evacuate Campus: Immediately use the site’s fire alarm bell system to notify students and staff that they are to proceed to the site’s outside evacuation areas. From there, notify staff and students using a bullhorn that it has been determined that it is too dangerous to remain on campus. The site Incident Command System will communicate off site reunification for staff, students and parents.
